Cutting Instructions

Please note: All strips are cut across the width of fabric (WOF) from selvedge to selvedge unless otherwise noted.

From Fabric A cut:

(1) 43" x 43" Panel

From Fabric B cut:

(8) 6" x WOF strips. Sub cut:

Stitch together to create a 6" x 352" rectangle

Tree Skirt Assembly

Using (1) A fold your fabric in half right sides together selvedge to selvedge. Then fold it together again wrong sides together lengthwise. This will give you a corner with 2 folded sides.

From the top corner of the folds measure down 2 1/2". Measure across, and diagonally 2 1/2". Connect those lines to make a quarter of a circle.

Please read instructions carefully before cutting

Using the same method, measure out the length of your skirt. We measured from our top corner to our edge = 21 1/2". Cut out your skirt following both these lines.

Draw a line straight down the back of your skirt and cut up. Fold straight edges back 1/4" and top stitch

Hem 1 edge of (1) B. Place the unhemmed edge of (1) B wrong side to right side with (1) A. Pleat or gather your strip around the entire outer edge of (1) A. Stitch in place to secure.

Place your edging over your seam connecting B to A. Leave a 5" tail at either end to tie your skirt closed. Topstitch in place. Repeat for the top circle.
